Our Customers

During their work here, Michael and his crew were very professional - working hard every day, performing high quality work, leaving no mess behind, and keeping open lines of communication. We will definitely be looking to contact Michael again when we are ready to focus on more of the softscape work to be done. Highly recommended.

Why Choose Downunder?

500+

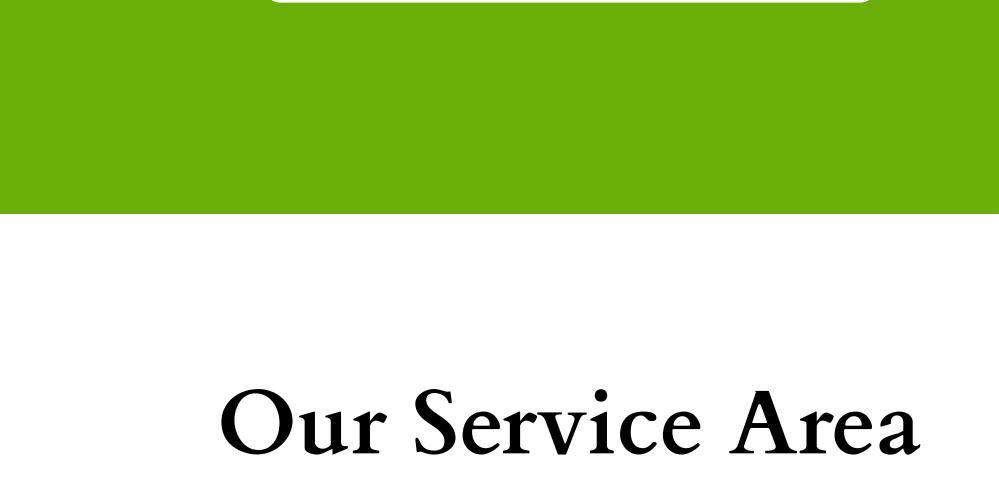

30+

Residential landscape projects completed in Orange County.

Winner of the Landscaping Super Service award from Angies List.

Years of experience in the landscaping industry.

About Us

Michael came to the United States in the late 1980's and started Downunder Landscape in South Orange County. His passion lies in landscape renovation. It is here where he can take a yard and artistically repurpose it. He transforms the ordinary, tired garden into a useful, beautiful, ecologically friendly space, with a subtle Australian flair. He creates spaces that are aesthetically pleasing, and highly functional – taking inspiration from his roots of exotic wildlife, rugged coastlines and rainforests of Australia.

Enthusiasm for landscape still shows in Michael's desire to provide each customer with a high level of service, and a professional end product. He is creative, personable, and listens to his customers. Whether you need a small tune up or a major project done, Michael will be there to say G-day.
